

# CONQUER THE WEB

## WEBSITE PLANS

+ EMAIL AND BLOGS

## Designed for you

We brainstorm together to build the best site structure to fit your business needs. Within 4 to 6 weeks, you will have a website preview, and from there, we fine tune it to perfection! 100% Custom. 100% You.

## Host and Maintain

Once your new website is built, we will not only host and maintain your website on the back end, but we will also make ALL the website changes you want on the front end each month. Just email what you want done and rest easy.

## Mobile Friendly

In today's age, it is no longer optional to be mobile responsive, it is a necessity. We take that seriously at NJP, making all our websites responsive on tablets and mobile devices so your customers can have a smooth experience exploring your site no matter what device they are on.

## Custom Forms

Whether you need a simple contact form, a quoting form with room for endless questions, or a way for customers to make payments or donations online to you directly, we can help build your custom forms for all applications!

## Graphics and Photos

We also provide our expertise in photography and graphic design services. Now you don't have to shop around at 10 different vendors just for one website project, let us handle all aspects of your website build for you.

## Secure HTTPS

Having a website secured and protected from online vulnerabilities is an essential feature of all websites on the internet. All of our hosting includes an SSL certificate, as well as several backup redundancies, to ensure your website stays safe and secure.

## STARTER PLAN

★  
Up to 10 website sections

★  
1 hour of web changes per month

★  
2 week response time for changes

**Setup starting at \$950  
+\$100/mo**

## PREMIUM PLAN

★  
Up to 20 website sections

★  
2 hours of web changes per month  
+ 1hr of advanced design changes

★  
1 week response time for changes

**Setup starting at \$950  
+\$150/mo**

## CORPORATE PLAN

★  
Up to 30 website sections

★  
4 hours of web changes per month  
+ 2hrs of advanced design changes

★  
3 business day response time  
for changes

**Setup starting at \$950  
+\$300/mo**

Setup fee based on scope of the project; a standard content-based website will typically be for just \$950. Advanced Design Changes include design changes, graphic design, and writing services. Response Time for changes are for standard requests. Complex requests may take longer, but an estimate on time will always be provided for complex requests.

## ADD-ON: Blogging with Email Blasts

Continually adding content and reaching out to your users is essential for growth.

We will develop a 400-600 word blog for you each month, which will in turn also be sent out by email blast to your email subscribers list.

We will assist managing your Mailchimp account by importing and cleaning up your provided email lists into your account. We will provide the initial design work necessary for email blasts. This design can be updated up to once per quarter, upon request.

*Starting at \$150/month  
+\$100/mo for each additional blog/email blast*

## ADD-ON: Business Email Accounts

We will assist in setting up Google Workspace.

We are a Google Workspace Reseller for business email accounts, which means you will have all the tools that gmail has available for your business email accounts.

Google Workspace will provide you with a plethora of business tools, including Google Drive (to create, share, and edit files), Google Calendar, Google Contacts, and the intercommunication tool Google Chat.

*\$10/month per email (plus tax)*

# GET STARTED

## WEBSITE PLANS

1

Pick your plan and add-ons and sign a contract agreement with NJ Productions.

3

We build the initial design, typically within three weeks, for you to review and adjust.

2

Discuss the specifics of what you want on your website and what style of design you like.

4

Once the final design is approved and live, your maintenance services begin immediately.
